## Business review

With the Freight Services business focus firmly on “trade corridors supported by key infrastructure” the businesses have used the first half to re-establish the basics and focus on the customers’ need for efficient and effective freight logistics services. All the businesses have displayed good progress and continue to add scale and diversification to the core business.

The core Bank has been further capitalised following good growth in deposits and advances and is re-establishing the retail business. The private equity businesses have been split out and are now driven as a separate focused business.

The Marine Fuel and Agricultural investments do not form part of the strategic focus and are therefore held for sale.

## Continuing operations

Continuing operations generated earnings of R136.7 million for the first half of 2019 against a loss of R418.2 million in 2018. Headline earnings grew by 118% to R136.7 million compared to R62.6 million in 2018.

## Maputo Port and Terminals

Port and Terminals earnings of R102.3 million were up 66% on 2018.

**Maputo Port** achieved a 9% growth in earnings, as it benefitted from a weaker rand against the US Dollar offsetting a 4% drop in its volume from 9.7 million tonnes in 2018 to 9.3 million tonnes.

The **Matola Terminal** benefitted from a continued buoyant iron ore price driven by global supply concerns. Volumes of 2.3 million tonnes fell marginally short of June 2018 volumes of 2.4 million, a 4% drop, due to weaker coal exports and some logistics challenges.

The **Oiltanking Grindrod Calulo** commenced the construction and development of the Ngqura Liquid Bulk Terminal with bulk earthworks in early 2019. Construction is estimated for completion in quarter four of 2020.

## Logistics

The Logistics segment showed improved earnings of R47.3 million recovering from a headline loss of R61.1 million in June 2018.

The **Seafreight** business and its landside operation achieved earnings growth which was underpinned by additional Mozambique voyages and improved volumes in cement, steel and mill shipments despite the impact of cyclone Idai in Beira.

The operational ramp-up in **Nacala contract logistics and container depot** which handles overflow port containers and the graphite business assisted the comparison as there was only a small presence in the previous year.

**Road transportation, containerised cargo and warehousing** businesses continued to be impacted by a highly competitive and declining volume market, and exposure to declining economic growth in South Africa.

**Clearing and Forwarding** recorded healthy earnings growth against 2018 following extensive work on both existing and new contracts. Ships Agency, which is bedding down the merger with Nova Logistics, had a decrease in earnings but expect a better second half as the engineering business earnings starts to come through.

The **Rail leasing** businesses returned to profitability in the current year following significant efforts to exit the non-performing contract. Twenty-four locomotives were extracted from the Tonkilili mine in Sierra Leone following the closure of the mine. The locomotives arrived in South Africa in July and will be deployed in sub-Saharan Africa on leasing contracts. The locomotives and wagon leasing joint venture, Grindrod Pembani Remgro (GPR), continued to operate well and improved its deployment rate with additional locomotives leased to Zimbabwe on short term contracts.

**Rail Logistics** continues to work well on throughput traffic on the North-South corridor but have been severely impacted on the in-country contract due to the deterioration of the Zimbabwean economy. Key input costs such as fuel and locomotive leases are US dollar based while revenues are settled in Zimbabwean currency. Prior year results include \$15.8 million (pre-tax and at 100% shareholding) received from the government of Zimbabwe in the form of Real Time Gross Settlement (“RTGS”) for the provision of fuel transportation services.

## Bank

The **Bank** reported headline earnings of R54.8 million (2018: R73.7 million). Deposits and advances grew seven and five % respectively, compared to the prior period. A further equity investment of R100.0 million was made to ensure the Bank is well capitalised. Significant resources have been redeployed to re-establish the retail business.

## Group

Costs relating to group increased in the current year following consolidation of the group's broad-based black economic empowerment (B-BBEE) structure as of December 2018. This consolidation has a positive effect on the earnings per share with an increase in treasury shares. The private equity and property private equity businesses, previously included in the Financial Services segment are now reflected in the group segment as these investments have matured and are now in the process of being realised. With fair valuations of these private equity investments nominal in the first half of the current year, costs exceeded earnings.

## Discontinued operations

The discontinued businesses comprise the **Marine Fuel and Agricultural Investments** businesses (prior year included Shipping results). This segment reported a headline loss of R257.5 million (2018: headline earnings of R286.2 million) due to an impairment in the Marine Fuel UAE business. Several employees have been dismissed and legal proceedings instituted. The business has notified the insurers of a potential claim. The Agricultural investments have returned good results despite the late planting season in South Africa which has resulted in a timing delay in the earnings from storage in comparison to the prior year. As the discontinued businesses are now held for sale an impairment provision has been raised against the investment carrying values to reflect management's estimate of the recoverable value.

## Related party transactions

for the six months ended 30 June 2019

During each period, the group, in the ordinary course of business, enters into various transactions with related parties. Parties are considered to be related if one party has the ability to control or exercise significant influence over the other party in making financial and operating decisions. These transactions occurred under terms that are no more or less favourable than those arranged with third parties.

Below is a list of significant related party transactions and balances for each period:

	Nature of relationship	Unaudited 30 June 2019 R000	Unaudited 30 June 2018 R000	Unaudited 31 December 2018 R000
<b>Goods and services sold to:</b>

## Fair value of financial instruments

as at 30 June 2019

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable:

**Level 1** Quoted prices (unadjusted) in active markets for identical assets or liabilities.

**Level 2** Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

**Level 3** Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Levels 2 and 3 fair values were determined by applying either a combination of, or one of the following, valuation techniques:

- Market-related interest rate yield curves to discount expected future cash flows; and/or
- Projected unit method; and/or
- Market value; and/or
- The net asset value of the underlying investments; and/ or
- A price earnings multiple or a discounted projected income/present value approach.

The fair value measurement for income approach valuation is based on significant inputs that are not observable in the market. Key inputs used in the valuation include discount rates and future profit assumptions based on historical performance but adjusted for expected growth. Management reassesses the earnings or yield multiples at least annually based on their assessment of the macro- and micro-economic environments.

## Contingent assets/ liabilities

as at 30 June 2019

The company guaranteed loans and facilities of subsidiaries and joint ventures amounting to R3 987.8 million (December 2018: R3 920.8 million) of which R1 452.8 million (December 2018: R1 223.4 million) had been utilised at the end of the period.

Due to the significant restructuring, sale and disposal processes over the last few years, there are potential legal and compliance risks, which may result in potential exposures.

## Other information

### Capital expenditure and commitments

R million	Capital expenditure		Capital commitments		Split as follows	
	H1 2019	H2 2019	2020	2021	Approved not contracted	Approved and contracted
<b>Continuing operations</b>	<b>176</b>	321	199	-	393	127
Port and Terminals	49	96	169	-	258	7
Logistics	120	225	30	-	135	120
Financial Services	7	-	-	-	-	-
Split as follows:						
Subsidiaries	144	201	30	-	135	95
Joint ventures	32	120	169	-	258	32

Total capital and investment expenditure was R176.0 million (H1 2018: R476.0 million), of which 42% was expansionary and the balance maintenance or replacement capital expenditure.

### Cash flow and borrowings

The financial position reflects net debt of R547.6 million (December 2018: R746.7million). The group generated operating profit before working capital cash flows of R403.9 million (December 2018: R899.4 million) during the period. Working capital contributed to a net inflow of R74.9 million (December 2018: R97.4 million net outflow).

### Statement of financial position

With total assets of R25 778.7 million (December 2018: R26 516.4 million) and low gearing, the group's financial position remains good. Book net asset value per share is 1 177 cents (December 2018: 1 285 cents).

Shareholders' equity decreased to R8 748.1 million (December 2018: R9 484.6 million) mainly as a result of losses incurred in the current year and dividends paid for the second half of 2018. The decrease of R117.0 million to the foreign currency translation reserve was due to the strengthening of the ZAR/US\$ exchange rate from R14.38/US\$ in December 2018 to R14.09/US\$ in June 2019. Ordinary shares in issue remained unchanged at 762 553 314 shares.

## Basis of preparation

The condensed consolidated financial statements have been prepared in accordance with the information required by IAS 34 *Interim Financial Reporting*, the South African Institute of Chartered Accountants Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Reporting Pronouncements as issued by the Financial Reporting Standards Council, and comply with the Listings Requirements of the JSE Limited and the Companies Act of South Africa, 2008.

Financial results for 2018 have been restated to reflect the exit of the Marine Fuel and Agricultural investments, and continuation of the Rail leasing business in accordance with the provisions of the IFRS 5 *Non-current Assets Held for Sale and Discontinued Operations*. Notwithstanding the offers received for the Rail leasing business, opportunities to deploy the extracted 24 Sierra Leone locomotives were more commercially attractive, supporting management's decision to continue with this business and reflects the revised strategy of the group.

In addition, the group adopted IFRS 16 *Leases* in the current year using a retrospective approach. Under this approach, the 2018 results were restated. The standard resulted in the recognition of right of use assets and corresponding lease liabilities for all open leases in 2018 and 2019 which are longer than a year. The major make-up of the right of use assets for the group is port concessions, vessel charters and leased facilities.

EPS – Earnings per share  
HEPS – Headline earnings per share

IFRS 16 amended the existing accounting standards to require lessees to recognise, on a discounted basis, the rights and obligations created by the commitment to lease assets on the statement of financial position, unless the term of the lease is less than 12 months or of low value. Accordingly, the standard resulted in the recognition of right of use assets and corresponding liabilities on the basis of the discounted remaining future minimum lease payments relating to existing and new time chartered-in vessel commitments; and rental agreements relating to office and residential properties that were previously reported as operating leases adjusting for prepayments and accrued lease payments.

The group transitioned to IFRS 16 in accordance with the full retrospective approach on 1 January 2018 as detailed below. Comparatives for the 2018 financial year have been restated. Lease expenses will no longer be recorded in operating profits but have been replaced by depreciation and interest expenses.

The weighted average incremental borrowing rate applied was based on the US dollar London Inter-bank Offered Rate (LIBOR) or prime rates of interest adjusted for risk factors. All right of use assets will be depreciated on a straight-line basis over the term of each lease.

The effects of adopting IFRS 16 are presented and explained below.

Impact on the Statement of Financial Position as at 1 January 2018 (date of initial application)

	Previously reported as at 31 December 2017 R000	Adoption of IFRS 16 R000	Adjusted balance as at 1 January 2018 R000

The unaudited condensed consolidated financial statements have been prepared under the supervision of Mr XF Mbambo CA(SA) and were approved by the board of directors on 22 August 2019.

## Accounting policies

The accounting policies applied in the preparation of the full consolidated financial statements from which the unaudited condensed consolidated financial statements were derived are in terms of IFRS and are consistent with those of the previous full consolidated financial statements except for the adoption of IFRS 16.

## Post balance sheet events

There are no material post balance sheet events to report.

## Change in directorate

Mr S Zungu resigned effective 23 August 2019, following nine and a half years on the board. The board thanks Mr Zungu for his valuable contributions over the many years of dedicated service. The board welcomes Mr W Grindrod as a non-executive director effective immediately.

## Prospects

With the core business firmly focused along key trade corridors, Grindrod is well positioned to serve customers with efficient and effective freight services in sub-Saharan Africa. The recapitalised Bank will focus on the its core lending book and the development of its small, medium and micro-enterprises (SMME) and retail offering.

## Declaration of interim dividend

### Ordinary dividend

Notice is hereby given that an interim dividend of 5.0 cents has been declared out of income reserves for the six-month period ended 30 June 2019 (H1 2018: no interim dividend declared). The interim net dividend is 4.0 cents per share for ordinary shareholders who are not exempt from dividends tax.

At the date of this announcement, there were 762 553 314 ordinary shares.

### Preference dividend

Notice is hereby given that a gross interim dividend of 447.0 cents per cumulative, non-redeemable, non-participating and non-convertible preference share (H1 2018: 442.0 cents) has been declared out of income reserves for the six-month period ended 30 June 2019, payable to preference shareholders in accordance with the timetable below.

At the date of this announcement, there were 7 400 000 cumulative, non-redeemable, non-participating and non-convertible preference shares in issue. The interim net preference dividend is 357.6 cents per share for preference shareholders who are not exempt from dividends tax.

With respect to the preference dividend, in terms of the dividends tax effective since 22 February 2017, the following additional information is disclosed:

- The local dividends tax rate is 20%; and
